## MEMORIAL EXERCISES

Union Veterans Fast Joining the Grand Battalions of Eternity

For the first time in thirty years members of Joseph Heiser Post, G. A. R., will not generally observe Memorial Day on account of the depletion of membership through death and infirmity. This was decided on at a recent meeting of surviving members of the Post.

The annual memorial services will be held at Beechwood Park, Sunday afternoon at 2:30 o'clock. All comrades and old soldiers and the general public are cordially invited.

And remember this is only one well.

A thousand of such wells can be sunk on the leased territory of the company, and enough developments are shown to make the stock of the company very valuable.

Last night Mr. J. Barbour Russell, wife and son, J. Barbour, and Mr. and Mrs. Stanley F. Ladd, went out to the Brookville well in Mr. Russell's auto especially to inspect the gas well. Mr. Russell informs THE PUBLIC LEDGER this morning that he and Mr. Reed were astonished at the magnitude and power of the gas. President Brown was in charge and controlled the flow with piping and a stopcock. He struck a match to the gas and it roared 30 feet into the air. Mr. Russell says the roar is very loud and the pressure so strong that it has to be handled with great care and boring deeper can only be done in calm weather, for if the gas should become ignited while the men are boring, it would burn them and the drilling outfit up.

## TRACTION ROAD A GO

First Section To Be Built Is Between Ripley and Portsmouth

## Manchester Signal.

So perfectly arranged is everything for the beginning of actual construction work on the Cincinnati and Pittsburgh Electric Railway that we can almost hear the clang of the gong.

Messrs. A. O. Kirchner of Cincinnati, and F. S. Kanode of Huntington, arrived in town Monday and in the afternoon proceeded to West Union where they met the County Commissioners and filed a \$10,000 bond for the beginning of actual construction work on the electric road. Adams being the first county in which a bond was filed, the same amount being necessary in each county in which the road passes through.

The first section of the electric line is to be built between Ripley and Portsmouth, a distance of sixty miles, although it is rumored that Manchester will be linked to Ripley in less than twelve months.

In a letter to Mr. Kirchner of Cincinnati, from Mr. Howland of England, President of the company, he says: "Mr. Darwin's cabled report accepted by the English syndicate, succeeds certain." Mr. Darwin passed over the route some few weeks since and if his report compared with the report made by the promoters the road would be constructed. Hence, the above cabled report speaks for itself and the road now is an assured fact.

## A GAS GUSHER

The Brookville Well is No Hot Air Fake Say Maysvillians

President John Brown of the Ohio Valley Oil & Gas Co., has the gas well near Brookville so well under control that he lights same and cuts it off at will by merely turning a screw.

When this pocket was struck numerous newspapers of this territory sneered at it and pronounced it a fake, saying that it was merely a scheme to博at the stock. They should have had more common sense than to accept such a fool proposition.

There are too many jills now full of thieving promoters for sane and honest men to say such an attempt.

However, as regards the Ohio Valley Oil & Gas Co.'s well at Brookville, the well is now showing a pressure of 35 pounds to the square inch and enough gas is on tap to supply Maysville and every town in Mason county.

And remember this is only one well.

A thousand of such wells can be sunk on the leased territory of the company, and enough developments are shown to make the stock of the company very valuable.

Last night Mr. J. Barbour Russell, wife and son, J. Barbour, and Mr. and Mrs. Stanley F. Ladd, went out to the Brookville well in Mr. Russell's auto especially to inspect the gas well.

Mr. Russell informs THE PUBLIC LEDGER this morning that he and Mr. Reed were astonished at the magnitude and power of the gas.

President Brown was in charge and controlled the flow with piping and a stopcock.

He struck a match to the gas and it roared 30 feet into the air.

Mr. Russell says the roar is very loud and the pressure so strong that it has to be handled with great care and boring deeper can only be done in calm weather, for if the gas should become ignited while the men are boring, it would burn them and the drilling outfit up.

## Trouble Brewing

It rumors floating on the ambient air be true that the Democratic Convention to be held to the Courthouse, this city, Saturday afternoon at 2 o'clock, will be a lively affair, as the insurgent progressive element of the young Democracy are coming to the fore and mean to have a say as to "Who's Who," as well as the old and stout patrollers. FOR PRESIDENT,  
WILLIAM HOWARD TAFT.

There were 1,620,766,000 pounds of butter, valued at \$405,000,000 produced on farm and in factories in the United States during the census year 1909, according to a statement issued by Director Durand of the Census Department.

The mathematical politicians of the two dominant parties are giving utterance to very pertinent statements these days concerning the

results of the primaries in the different states as regards Taft.

Roosevelt, Chapman, Clark, Wilson, Underwood, Harrington, La

Follette and Cummins. It is pointed out that

in a majority of instances not more than 25 per cent of the actual vote of the states has been represented at these primaries. The remaining 75 per cent of the voters is to be heard from on election day. The problem with the politicians therefore is: "Do 25 per cent of the voters represent so far as the actual result on election day is concerned the remaining 75 per cent of the voters who did not take the time or trouble to make known their views at the primaries?" It is the old question of delegated government coming up in a new form, say these politicians. They declare that the preferential presidential primary does not represent the views of the majority of the voters any more than did the old primary system by which delegates to a state convention which named delegates to the national conventions were chosen.

## SOME DON'TS FOR CLUB WOMEN.

Don't educate your grocer before you educate yourself.

Don't blame when you can praise.

Don't buy food exposed in dirty shops.

Don't buy food where employees are unclean.

Don't buy food where employees have no proper sanitary conveniences.

Don't buy food where cats and dogs are allowed.

Don't buy without reading labels.

Don't buy "bargain counter" food.

Don't buy without seeing food.

Don't hide any evasion of Pure Food Laws which you find.

Don't leave kitchen and ice chests to servants.

Don't rest until your town has a salaried inspector.

## LABELS.

The law requires all food manufacturers to label their products truthfully. Read the labels carefully. They are your protection from fraud. Study them and learn what is an honest label.

The labels must tell what is inside the package. If it is a compound, it must be so stated.

Read the small print, as it is often more important than the large. Does the label tell the truth about the contents of the package?

Don't buy foods and artificial color for foods containing chemical preservatives. The labels should tell. Glucose must not be corn syrup. Glucose is cheaper.

Unbleached flour is better for health than bleached.—Kentucky Health Board Bulletin.

"Pastor Russell," as he calls himself, who has succeeded to an unusual degree in thrusting himself upon public notice, and who always manages to do it in a way that pays handsomely, is going the round just now, advertising himself by posters, in the papers, and in other ways, as he proceeds. The Watchman reports that the Brooklyn Eagle is playing a pointed joke on him. From its account it seems that the eminent man left full reports of his movements and addresses to be delivered in certain places, these addresses to be given to the daily press in America at proper date to appear as if by cable. "With considerable enterprise the Eagle has secured papers from the points visited by Pastor Russell, and is printing in parallel columns the reports of what actually occurred alongside of the glowing accounts supplied to American papers." We are glad to assure all who are disposed to look upon this as a reproach to the church that Mr. Russell stands for himself alone, repudiating all the churches, and is no more a reputable representative of the church and of Christian thought and propriety than any other individual who might, for the lure that is in it, march around the land advertising himself and trying to pose as a great teacher.

Senator Bradley is neither a prophet nor the son of a prophet, but, in predicting that Mr. Roosevelt will bolt unless he receives the nomination at Chicago he exposes himself to

**Bradley as a Prophet.** small danger of adverse criticism for essaying a role in which he is not experienced. The situation in Kentucky, where the Taft followers outnumbered two to one the Roosevelt representatives in the Republican State convention, and where the Colonel lays claim to all the instructed votes, conceding none to Mr. Taft where conventions have been held and the result has gone against the Colonel. Design, not accident, has dictated this course. For even the Senator must admit, that the Colonel knows his Republican brethren from the South. If they stand pat for Mr. Taft, the Colonel will run as an independent. If, as is more probable, they desert Mr. Taft at the first opportunity, going over boots and breeches to the Colonel, he will then become the accredited Republican nominee. Mr. Roosevelt will bolt if he has to, but the chances are that he won't have to.

He may be a bit premature in counting his Kentucky chickens, but that they'll come home to roost alright, providing the roost is made "high" enough, is a reasonably fair inference.—Louisville Times.

## The U. S. And No. 13.

It pursues us.

Every emblem employs it.

There were thirteen states.

And thirteen stars and stripes.

"E pluribus unum" contains thirteen letters. The crown of liberty has thirteen stars.

The eagle holds a thunderbolt which has thirteen darts.

And an olive branch with thirteen leaves.

There are thirteen feathers in each of the eagle's wings.

Somebody with a good deal of time must have figured this out and it might look ominous.—Kansas City Star.

A VALID REASON.

"I married a suffragette," said Mr. Cholmondeley Rippingale, of Hyde Park, "and for five years have found unspeakable happiness."

"I'm glad to hear it," said the suffragette leader.

"Yes," said Rippingale, "Mrs. Rippingale has been in jail four years and three months altogether."

## The U. S. WEATHER BUREAU

Says that the wet spell is over and we will now be permitted to enjoy spring. Kind of him, isn't it? Well, nearly everybody likes to "spruce up" in spring; repair the porch, put up screens, paint a window in a dark room or maybe put in a new front door. It makes no difference whether it's a single board or an entire building we can furnish it.

KNOWS NOW

Doctor Was Fooled By His Own Case For a Time

It's easy to understand how ordinary people get fooled by coffee when doctors themselves sometimes forget the facts.

A physician speaks of his own experience:

"I had used coffee for years and really did not exactly believe it was injuring me, although I had palpitation of the heart every day. (Tea contains caffeine—the same drug found in coffee—and is just as harmful as coffee.)

"Finally one day a severe and almost fatal attack of heart trouble frightened me and I gave up both tea and coffee, using Postum instead, and since that time I have had absolutely no heart palpitation, except on one or two occasions when I tried a small quantity of coffee, which caused severe irritation and proved to me I must let it alone.

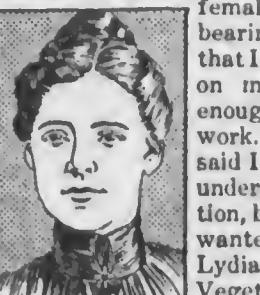

"When we began using Postum it seemed weak—that was because we did not make it according to directions—but now we put a little bit of butter in the pot when boiling and allow the Postum to boil full fifteen minutes, which gives it the proper rich flavor and the deep brown color.

"I have advised a great many of my friends and patients to leave off coffee and drink Postum, in fact I daily give this advice." Name given by Postum Co., Battle Creek, Mich.

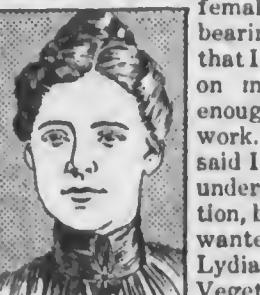

Many thousands of physicians use Postum in place of tea and coffee in their own homes and prescribe it to patients.

"There's a reason," and it's explained in the little book, "The Road to Wellville," in page.

Ever read the above letter? A new one appears from time to time. They are genuine, true and full of human interest.

If you want special advice write to Lydia E. Pinkham Medicine Co., (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

## The Perfect Laxative For Elderly People

Age has its attractions no less than youth, more serene and quiet life, but it is this quiet life which is not sufficient exercise that brings with it those disorders that arise from inactivity. Chief of these are a chronic, persistent constipation.

Most elderly people are troubled in this way, with accompanying symptoms of aching, drowsiness, after meals, headaches and indigestion. Frequently there is difficulty of digesting even light food. Much mental trouble comes, as there is pain and a sense of weariness. First of all the trouble may be given that elderly people should not use salts, cathartic pills or powders, waters or tonics, as they are not good for them. What they need are as well as men, is a mild laxative tonic, one that is pleasant to take and yet acts without griping.

The remedy that fills all these requirements, and has in addition tonic

### ENDORSED AT HOME

### SUCH PROOFS AS THIS SHOULD CONVINCE ANY MAYSVILLE CITIZEN

The public endorsement of a local citizen is the best proof that can be produced. None better, none stronger can be had. When a man comes forward and testifies to his fellow-citizens, addresses his friends and neighbors, you may be sure he is thoroughly convinced or he would not do so. Telling one's experience what it is for the public good is an act of kindness that should be appreciated. The following statement given by a resident of Maysville adds one more to the many cases of Home Endorsements which are being published about Doan's Kidney Pills. Read it.

Mrs. John E. Butts, Maysville, Ky., says: "The testimonial I gave in 1908, when I publicly recommended Doan's Kidney Pills still holds good. I know that this remedy is just as represented as it has been used by one of my relatives with satisfactory results. The remedy was obtained at Wood & Son's Drug Store."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

### OUR WEEKLY SPORT LETTER

BY C. H. ZUBER.

CINCINNATI, O., May 24th, 1912.

The fight for honors in the National League continues to be a two-club affair, with the Reds and the Giants alternating in first place.

The series of games with the New York,

which closed on Wednesday, drew out the

largest audiences on their respective days

that have ever witnessed games in this city.

Begun on Saturday, every day established

a new record for the particular day of the

week on which the game was played, the Sat-

urday and Sunday audiences being particularly

in advance of any crowds ever seen at the

local park on those respective days.

So far as the two teams are concerned, the only ad-

vantage the Giants seem to have over the

Reds is in the matter of their pitching staff,

although the games played here have not

shown any extraordinary weakness on the

part of the Reds' twirlers. One gratifying

feature was demonstrated by the contests, and

that was that the Reds no longer fear the

mighty Mathewson, who doesn't seem to be

quite as mighty as he formerly was. From

now on they expect to win a goodly number

of games off the former Peerless One.

Although the Reds have already demon-

strated their strength as a road team, they

will have a further test during the next few

weeks. The team is now off on a tour cover-

ing a period of about a month, during which

time they play in every city on the National

League circuit. So far they have broken

even in Pittsburgh and Chicago, and have won

four straight games from St. Louis, their road

record being six games won and two lost. A

team that can win one-half of its games

abroad is supposed to be going some; so it

would seem that the Reds are striking up a

lively pace on tour. There are quite a num-

ber of optimistic fans who believe the Reds

will win the National League pennant, al-

though no such claims have been advanced by

management. But in the matter of hoping,

everybody's doing it. The Reds first Sunday

game at home after their present tour, will be

played on June 23, with the Cardinals as their

opponents.

That certainly is an unusual condition that

was created when President Ban Johnson, of

the American League, read the entire Detroit

team out of the business for going on a strike

because of a druggist at fifty cents or one

dollar a large bottle (family size) can

place of charge by him, advertising Do-

Cincinnati is getting ready for the opening

of the local racing season. Over at Latoni

hundreds of men are busy preparing the

famous track for the spring meeting of 24

days, which opens on Decoration Day. The

racing held in Kentucky so far this season

would indicate that the sport is cleaner and

better this year than it has been in many

years, and the fact that the public has con-

fidence in the sport and its management

is bringing out as good a class of people as

attended the turf events before the bookmak-

ers seemed control of them. Now that the

bookies have been superseded by the honest

betting machines, the sport again is coming

Today's game between Lexington and Maysville might well have been termed a "Comedy of Errors," but Maysville men were the only ones who could see any comedy in it, as they had the long end of a 13 to 4 score.

Walman pitched a steady game for the Rivermen, though he was almost forced to retire in the seventh when Rosenfield slammed one at him, which came near going all the way through him. He stopped it with one hand.

**Unseen Danger**

The shriek of a locomotive is a warning of immediate danger so great that it must be heard, but many people face other dangers as great without knowing it.

H. Lloyd of Mt. Vernon, N. Y., writes us about a recent experience as follows: A man orally debilitated condition of the system, which had lasted for two months and was growing worse, impressed on me the necessity of using a good strengthening tonic. Vinol was my choice because I had heard so much of it, and I am pleased to say it has fulfilled every recommendation. I have regained my usual strength, and other members of the family have also found Vinol very beneficial.

If you are fagged out and weak, have poor appetite, sleep badly or are in low spirits, then you should heed the warning and begin promptly to build up your strength with Vinol. It recovers and enriches the blood, and brings back your old-time vigor and vitality. You can use Vinol at our risk, for we guarantee it to help you. J. C. Peeler, Druggist, Maysville, Ky.
